SENIOR FULLSTACK PRODUCT ENGINEER

I scope, build, and operate product features that move key metrics. Ship fast with Next.js, Node, Postgres, AWS. Keep services observable and healthy.

SKILLS

TypeScript • React • Next.js • Node.js • PostgreSQL • Prisma • GraphQL/REST • AWS (S3, RDS, SQS, CloudFront, +) • Docker • GitHub Actions • PostHog • OpenTelemetry

EXPERIENCE

G2i, Inc

Senior Software Engineer

Remote

Jun 2021 - Present

- Cut grader p95 decision time 6 min → 3 min by rebuilding the internal dashboard, adding alerting and p95 monitors (React, Next.js, PostHog, OTel)
- Delivered a client portal from spec to prod that lifted NPS by 15 points and reduced sales and support load (Next.js, Node, RDS, S3)
- Shipped safe text-to-SQL with RBAC, allow-listed queries, rate limits, and tracing to protect prod data (Next.js, Python, Postgres)
- Reduced resume search from minutes to seconds using Postgres FTS and pgvector with tuned indexes and ranking (Postgres, pgvector, Prisma)
- Built long-running job UI with retries, backoff, and cost tracking to keep AI workflows predictable (Next.js)

dotCMS

Senior Frontend Engineer

Remote

May 2020 - Jun 2021

- Rebuilt publishing UX, publish time down 30% by removing steps and batching API calls
- Consolidated 10+ microfrontends into an Nx monorepo, build time down 35%, shared components
- Lighthouse score 78 → 95 via code splitting, image optimization, memoization
- Improved accessibility across core flows with keyboard navigation, ARIA, contrast fixes

Envato Pty Ltd

Senior Software Engineer (Quality/Tooling)

Remote

Jul 2010 - Apr 2020

- Led ThemeForest code review program at marketplace scale, authored engineering guidelines, acceptance rate +15%
- Built Chrome extension used by reviewers, manual review time -40%
- Shipped automated linting and validation pipelines with ESLint, Stylelint, Axe/Lighthouse CI

Earlier

UI/UX Engineer

Remote

- Pixel2HTML — UI/UX Engineer — 2011–2012
- Envato/ThemeForest — Independent Author — 2008–2010

SELECTED PROJECTS

- **Forminary:** form builder with RBAC and design-system components (Supabase, Next.js)
- **Client portal:** spec to prod delivery with measurable NPS lift (Next.js, RDS, S3)
- **Search acceleration:** FTS + pgvector pipeline, minutes → seconds (Postgres)

EDUCATION

Universidad de Falcón

Law (developed strong research, analysis and communication skills)

Venezuela

2010
